Computer Science Undergraduate Student

Work Experience

Team Promotion

2022 - 2024

Bina Nusantara University | Alam Sutera

While continuing my study at Bina Nusantara University, i found my self in need for some software skills upgrade. So i decided to work part time on the Marketing Team of BINUS University, i learned a lot from the job, including building confidences, learning how to communicate well with many kinds of people, also some marketing skills and presentation skills along the way.

Activist

2022 - 2023

Himpunan Teknik Informatika (HIMTI) | Bina Nusantara University

HIMTI is an organization that took care of most of the internal and external event of BINUS' School of Computer Science (SOCS). I have been an activist in one of HIMTI's division, to be specific i was placed in Publication and Marketing division along with many more HIMTI Activist members, i learned how to produce an exciting content for HIMTI's social media and along the way i also learned how to work with a team and how to deliver maximum result with the most efficient process.

Member

2022 - now

Keluarga Mahasiswa Buddhist Dhammavaddhana

KMBD is an active Buddhist Community in BINUS University, i participated on some social events hosted by KMBD. I also think that honing my spiritual side is undoubtly also part of an important character in my life. Through this community, i learned how to build an excellent character while maintaining a good relationship with God.

About Me

As a creative and disciplined computer science student, I am looking for environments that challenge me to think outside the box. My hardworking nature and strong communication skills help me collaborate effectively with others. I'm always eager to learn and explore new ideas, making me adaptable and ready to grow in any team
